Student Resources

Student Health Services

- The Student Health Center offers services to support each student's pursuit of a healthy life. A nurse is available for regular appointments to treat minor illnesses and injuries and to provide assessment, referral and preventive care, as well as to share health-related educational materials. A licensed professional counselor offers a broad range of confidential counseling services and is a resource for referral to a community counselor and/or other mental health services professionals. Professional services are offered by appointment.
- Counseling Services can be obtained by logging on to Virtual Care Groups telehealth platform. Speak to a behavioral specialist 24/7, 365 days a year from any device. *Inquire about an off-site in person counseling resource if needed.*
